**X-Series**  
BRACKET SYSTEM<sup>™</sup>

SMALL. **REVOLUTIONARY.** SIMPLE.

THE ORIGINAL WOOD  
PILASTER BRACKET  
SYSTEM.

A SINGLE SLIDE/SWING MOTION IS ALL THAT'S NEEDED TO ADJUST.

# INSTALLS IN THREE EASY STEPS

## THE MOST ADVANCED ROLL-OUT SHELF BRACKET SYSTEM YET.

### SIMPLE TO INSTALL

- The prefinished maple pilasters are 2-1/2" wide and can be trimmed down allowing the cabinet shop to custom fit them to ensure clearance of the hinges.

### TOOL-FREE ADJUSTABILITY FOR THE CONSUMER

- The 1/8" thick patent pending metal brackets screw to the slides and with a simple sliding/swinging motion lock into position

- Your clients can easily custom locate their shelves to meet their own personal needs after the kitchen is installed.

### ATTRACTIVE & DURABLE

- Combine the prefinished solid maple pilasters with the 1/8" thick metal brackets and the results are an exceptionally strong adjustable shelf bracket storage solution both kitchen builders and consumers love.

### AVAILABLE IN KITS FOR:

- XB150 - Single set kit for Standard Height base cabinets (21-3/4" pilaster length).
- XB150BP - 10 sets in a Bulk Pack for standard height base cabinets (21-3/4" pilaster length).
- XB250 - Single set kit for Full Height base cabinets (28" pilaster length).
- XB550 - Single set kit for Pantry cabinets (60-3/4" pilaster length).

### ALSO AVAILABLE:

- X-Series Brackets only for those wanting to make their own pilaster systems.
